Great book. Easy to read. Informative and fun.

Some helpful, healthful information - not quite done with reading through it yet. Very good for people interested in nutrition for their health as well as inner and outer beauty.

I loved how knowledgeable the author was while writing this book. Although it seems redundant at times I think I could read this book 3 times over and still be bettering myself with each read. Will be reading again!

It felt almost like reading a health ad rather than getting health info. While the information was there, it felt almost like a seminar to sell a product rather than educate you.

This book is full of so much information! I especially loved the lists of seasonal foods and the different aspects of health addressed. Perfect for educating yourself on more everyday nutrition.

I love this book! It's very informative, well written and most attractive. It's also a great reference after reading cover to cover. I've purchased numerous copies for thank and hostess gifts.

Great book!

I really do like this book. It is very clear and concise and filled with personality and positivity. The recipes are good and the advice is sound. I do wish there were more recipes though particularly for vegetables and fish. I would certainly suggest this to a friend! I love how she divided it up by season. She has also completely won me over on her coconut oil argument and I now exclusively use coconut and extra virgin olive oil and I drink lemon water every day. My skin is better, my health is better and I just plain feel better.
