## Customer Reviews

Easy to follow recipes and ingredients were easy to find.

Most ingredients are easy to find however the flavors are very unique. Give it a try . It is the next great Asian cuisine to enchant America.

This is an excellent cookbook of Philippine foods.

This book has great food photography, but as another reviewer stated it is mostly a "coffee table" book. My wife is a Filipina, and she says that Alejandro has taken most of his recipes from his older books and "recycled" them into this one. If you want "hands-on" Philippine recipes, this may not be what you are looking for. It is a great book if you only collect cookbooks but don't use them much.

This book help me a lot and it's very encouraging to see a picture of what you'll be cooking so you know how it would look like. It has a substitute ingredients too, if you can't find some oriental ingredients. I recommend this to people who love to cook Asian foods. The best so far with the Filipino recipe books that I've used.

I am always looking for good Filipino cookbooks. I was delighted to find this while I was browsing until...I looked through the book. It has pretty pictures, it definitely made me think of the Philippines. But I was hoping for a more substantial cookbook, one with more recipes, one I can actually use as a cookbook. This is more of a coffee table book, made to tantalize and not quite functional. It has pretty pictures...

A very good book that not only provides a history on Philippine cuisine, but a surprisingly comprehensive collection of favorite Filipino dishes that is simple to follow.If you are looking for a book about Filipino dishes, you won't go wrong with this one.
