It helps to pursue my dreams in the entertainment industry. Every career path is detailed. Great job!

Exactly what I was looking for.

You don't have to live in Hollywood to work in the film industry even though a large part of moviemaking is based in and around Los Angeles. Independent film (and even an ever increasing number of studio productions) are made "on location" around the country and around the world. *Career Opportunities In The Film Industry* is an essential reference for anyone considering the prospects for employment in this globe-spanning industry. Thematically organized into sixteen sections, the more than 75 jobs range from screenwriter, Stuntperson, Storyboard Artist, Production Assistant, and color timer, to auditor, gaffer, film critic, boom operator, music supervisor, caterer, and dialect coach. Informed and informative, each job description is succinct and comprehensive. Also available in a hardcover edition, *Career Opportunities In The Film Industry* is enhanced with the inclusion of a glossary, bibliography, various appendices, and an index.

Living in Los Angeles and being involved with the film industry, I saw this book, glanced through it and immediately bought it. All I ever wanted to know about the different career opportunities available in the film industry are named and defined with details such as employment and advancement prospects, training needed, salaries and so on. As I had been considering changing careers within the industry, I found this book to be the exact one necessary to define what other related employment opportunities were available to me. No other such book was on the shelves! Finally a concise, succinct albeit encyclopedia-like book/guide is here to delineate all the jobs I ever wanted to consider in the highly competitive world of film. This book is a must-read for anyone

interested in working in this exciting, no-two-days-alike world.
