Looking for something you won't have to be worried about your daughter reading. This is it. My daughter who is 12 couldn't put it down. I read them when I was a young girl and I remember I couldn't wait for the next one to be written!!

When I was about 10 yrs old, I received the first, original box set of books 1-5 in the series and was hooked! (that was about 20 yrs ago :) I was fortunate to have a friend who collected the entire series, so I was able to borrow the new sets from her or from our local library. Now I have a niece

who is nearing the age that she would enjoy these mysteries so I wanted to have the entire collection to read together with her and/or let her borrow. I LOVE the fact that the series is now volumes bound in 1 book (5 books in 1) so that it is fewer individual books to keep track of. Also, there is something to be said for the challenging of accomplishing reading a book that is over 300 pgs. when you are so young.

For some reason I didn't realize they would all be combined into a few books, I thought there would be separate books. That's the only downfall.

These were my all time favorite books growing up! I loved the mystery of each one. I love that I can buy these now for my own kids and share these fun stories with them. The Christian emphasis is important to me now as well as I learned many valuable spiritual lessons through these books. I had the entire series as a child and spent countless hours reading and rereading them. This book is pretty large as it is book 6-10. It may prove to be difficult for the 8 year old I bought this for to hold and read easily on her own.

I read all of the Mandie books when I was growing up and they first came out. And I've re-read all of them several times. Even when I got "too old" for the books, I still bought and read each new one that was published. I loved Mandie and wished I could have had some (but not all) of the adventures she did. I still have my collection of all of the individual volumes. I bought this book for my niece for Christmas, and it's a great value to have 5 of the stories in one volume. Out of curiosity, I looked and found a price tag of \$3.99 on one of my old books and that's from a good 20+ years ago, so you're definitely getting your money's worth.

My 9 year old granddaughter has fallen in love with the Mandie series. She has read through Volume 3 and is now on Volume 4 and wants to read every one. She said that she loves the way that one book builds on another. Hopefully, her three younger sisters will love the books as well when they are old enough to read them.

The Mandie Collection is a wonderful mystery and adventure series for girls. I started by giving it to my two daughters to read over 20 years ago and have now bought them to give to my granddaughters. This series is as cherished by my granddaughters as it was by my daughters. We still have the original set that we bought a book at a time. However, with six granddaughters so far

there was not enough books to go around. I highly recommend these books. It is nice to have books that I don't have to wonder what my children or grandchildren are reading. They are having fun and enjoying going on the many adventures and solving mysteries with Mandie as well as being fed both spiritually and intellectually. As a Mom and Grandmother I can not say enough about these books.

I did every chore I could think of and scrimped and saved as a young girl so I could buy each Mandie book when it came out. I adored this series! Recently, I wanted to read it again, wondering if it was as good as I remembered it to be. I was thrilled to find it available for Kindle! They definitely are not as good as I thought, but I am enjoying them nonetheless. Perfect for a young girl who loves mysteries and traveling to far away places with Mandie. I will definitely be buying the rest of the series as I read them; I have two boys of my own, and don't have much time for girliness. Fun series!
