Debra Burdick, LCSWR, BCN, also known as The Brain Lady, is the author of the best-selling Mindfulness Skills Workbook for Clinicians and Clients. She is an international speaker, psychotherapist and neurotherapist who has been teaching mindfulness skills to her clients for more than 25 years.

This book is not only for clinicians and clients, it is also for teachers. It is absolutely AMAZING if you are looking for mindfulness activities for kids and adolescents. I have used many of the activities and the teens just love them! Thank you Debora! You now need to change the title of your book to Mindfulness Skills for kids & teens. A workbook for clinicians, clients & TEACHERS with 154 tools, techniques, Activities & worksheets. I will be promoting your book this Friday at the Canadian Mental Health Conference here in Ottawa.

I'm implementing a mindfulness program at a middle school and needed some additional curriculum to be used. There are tons of activities in this book and can easily be pulled for a classroom setting.

Activities could be change to fit a group setting. Detailed enough to learn about mindfulness and simple enough to follow and put into practice.

Good resource.

love it

I found some fabulous activities to use with my students who are challenged with emotional disorders.

Content is great, but Kindle version means the worksheets are useless

Lots of great information and exercises.
