Customer Reviews

This is a good Christmas story for fans of Dora the Explorer but a little long for those under the age of four years old. Wish there were Dora books that were shorter for those 2 to 4 years old.

My almost two year old son has recently become very interested in Dora the Explorer. This is a very nice little story that includes both Dora and Diego. Santa's reindeer become sick, so Diego takes care of them and Dora and Boots help Santa deliver Christmas presents. My son really enjoys this book because it shows Santa, Dora and Boots delivering presents to animals all over the earth. He really likes to point them all out. Overall this is a nice story...perfect length for a toddler, not too short...not too long.

A lovely little Dora story. For children who love stories about Dora, they will enjoy this one too.li

highly recommend this book.

Just like all of Dora's books there is lots of color and lots of characters to look at. My daughter is 17 months old and LOVES books especially with pictures lol.

I did not order this

I bought this because my daughters are huge (but fairly new) Dora fans. We see the cartoons on Nick Jr. and have 'Dora's Christmas Carol Adventure'. Most of the book seems to focus on these star characters which we have yet to see on a Dora episode (like I said, we are fairly new to Dora). There was no mention of the map, which is one of my daughters favorite characters. So far, my girls haven't really taken to this book. They seem to prefer other Christmas books we have. This is book is very typical of books in this price range. Thin cover and pages - not for kids who still need board books.

I have a tablet that includes the kindle and I thought when I purchased the book for my kids it would have pictures but all we got was the text, it would have been worth my money just to buy the book instead.

Downloaded this Christmas book for my 5 yr old granddaughter. We had fun reading this interactive book over and over. Of course she Loves Dora, so it was a good pick. By the way, she Loves my Kindle
