Backpack Cooking: Outdoor Cooking For The Adventure Traveler

Synopsis

BACKPACK COOKING is the definitive mealtime guide for the long distance hiker, touring cyclist or any traveler living out of their backpack or panniers. This guide will help you prepare simple, cheap and delicious meals, each loaded with the calories your body needs to make it to your next resupply, and specifically designed for easy preparation with readily accessible ingredients. These aren't complicated recipes requiring a multitude of ingredients or excessive pots and pans â” things no thru hiker would have room for in their pack. In fact, most recipes and meal ideas can be prepared in a single cup or pot, even a freezer bag or thermos if you choose! So whether you are setting out on your first true hike or gearing up for your millionth long-distance bicycle tour, be sure to get the most out of your adventure by preparing tasty meals on any budget. Read BACKPACK COOKING today!

Customer Reviews

A quick read packed with first hand experience. This author relies heavily on pre packaged and processed foods, but has very practical and creative advice about eating on the trail. There are

many ideas here I hadn't considered or seen elsewhere. I am planning a though hike next year and gained several specific tips from this book that will be helpful to me as I do that

Good info, learned some good things.

I enjoyed reading this book, but I expected more recipes. It does, however, contain some really good ideas that I plan to use on my next outing.

Good book but I'd have preferred some recipes were included.

While it is not a "cookbook", as it doesn't really have many recopies, It does have A LOT of good tips and tricks. This will always be a great go to book.

Simply one of the best books I have read on backpacking food and cooking. I would recommend this book to anyone looking for a great resource for ideas.
