Face it, even if we run codes these questions can be tricky - and try to keep up with the ever changing AHA guidelines. The pre-amble to test questions is well organized easy reading, useful and interesting. The test answers with explanations speak for themselves. It's a great pre-course study guide for passing the certification exam and focused for that purpose 5.0 out of 5 stars By Mark on April 21, 2015 Easy to follow. An outstanding guide. Helped me pass the course, easy to follow!!!! Highly recommended!! 5.0 out of 5 stars By VCRN on December 15, 2015 This is a comprehensive yet concise review book. I have to recertify every two years and found it a great refresher course of the details of practice that we are consistently tested on but may not stick in memory. I can also appreciate its value for the first time student. It gave me confidence to go into class confident I knew what I was doing and could convey that when tested. Highly recommend it!

Michele is a Certified Instructor and specializes in providing Certification classes in ACLS, BLS, and PALS. Visit her website to see more about her classes, books, study guides, essays, and articles. Visit Michele's YouTube page to see all of her free video lessons. Michele has been a clinical nursing educator for over 32 years. During those years, she has helped many thousands of nurses improve their own job performance and increase their own job satisfaction. Michele considers herself to be a nurse's nurse, because she is not hidden away in a classroom or office, but out on the floor everyday - interacting with hospital management, the nurses, the patients, and the physicians. For many years Kunz was the Director of Nursing Education and Informatics at Long Island College Hospital in Brooklyn, NY. She was in the LICH Nursing Education Department for 25 years. Kunz developed the desire to teach nurses over 30 years ago when she was an ICU nurse at Staten Island Hospital (now called SI University Hospital). It was at SIH that Kunz realized that she could learn how to be a better nurse by teaching the other nurses. Kunz hasn't stopped teaching since then. Kunz is now the Critical Care Educator at Mercy Medical Center in Rockville Centre, Long Island, NY. She is also the Director of Education at Dickson Keanaghan, LLC, a company that she helped create, where Michele and Joe train and certify the medical staff of over 600 hospitals, medical offices, and surgi-centers on Long Island, New York City, and Westchester. This was a helpful tool to study for the exam! Only took off a star because it really bothered me that there were multiple typos. The SpongeBob theme was a little odd as well haha. All in all though, it was helpful and focused.
