# Say Goodbye To Illness

## Synopsis

Acne? Addictions? Computer radiation? Latex? Anxiety? arthritis? Asthma? ADD? Backache? Bedwetting? Carpal tunnel? Depression? Colitis? Dizziness? Eczema? Hay-fever? Headaches? Hyperactivity? Indigestion? Insomnia? Fatigue? Migraines? Shoulder pain? Bronchitis? Sinusitis? Vertigo? Whatever you suffer from...there's an allergy behind it. For millions of people all over the world, these health problems may, in fact, be caused by food and environmental allergies. Allergies they never knew they had. In the new and revised, "SAY GOODBYE TO ILLNESS", Dr. Devi S. Nambudripad, developer of Nambudripad's Allergy Elimination Techniques (NAET) and the world renowned holistic allergy specialist based in Buena Park, California exposes the truth behind so many health problems plaguing people today. In her book , Dr. Devi gives a new definition for allergies and a deeper understanding of how our bodies relate to or retreat from the millions of natural and artificial substances around us. And she discloses her fascinating NAET technique, which is curing thousands of people every year of their multiple health problems. How? By tracking down their allergies. Then, through a blend of western and eastern techniques, Dr. Devi treats and beats the allergy. Her book is thoroughly researched and supported by hundreds of client success stories, people just like you who have suffered and now live allergy-free. This book will revolutionize the practice of medicine! --This text refers to an out of print or unavailable edition of this title.

## Customer Reviews

Born in India, Dr. Devi S. Nambudripad has made California her home since 1976. In an effort to solve her personal health problems suffered since childhood, and to help others with similar problems, she conducted research in the U.S. over the past fifteen years resulting in the

development of a new and effective approach known as Nambudripad's Allergy Elimination Techniques (NAET), for diagnosis and treatment of allergies of all types. She has pointed the way to perfect health by combining many methods and techniques from different disciplines of medicine including Allopathic, Kinesiology, Chiropractic, and Oriental Medical procedures of Acupuncture and Acupressure. Dr. Nambudripad has received extensive training in each of these fields, both in the United States and in the Orient. To date, thousands of patients who could not find relief elsewhere have been successfully treated for both food and environmental allergies by NAET. Dr. Nambudripad conducts training seminars regularly in NAET open to currently licensed medical practitioners. She has trained over two thousand medical professionals in her special procedure on permanent allergy elimination. --This text refers to an out of print or unavailable edition of this title.

I have been suffering from allergies for years and was in constant pain. This book has changed my life. After working with allergists, doctors and dermatologist with no relief I happened upon a health forum where this technique was mentioned. I immediately ordered the book and found a person that uses this technique and have been receiving treatment. Turns out I was allergic to so much more than what I was tested for by the allergists. Instead of masking myself with drugs that only help to take care of the symptoms I am beginning the process to eliminate the allergy altogether. For anyone out there suffering and tired of not finding any relief with western medicine, I strongly recommend reading this book.

The idea seems fascinating. But when I went for treatment, it gave me terrible skin reactions which turn out to be a permanent issue. My face was covered with red rashes 30 minutes after the treatment, itching, burning, swollen, and basically my face became like a basket ball. The practitioner did no help to fix it. I spent nearly \$80,000 to cure it, but so far it hasn't helped. I tried to contact Devi Nambudripad, but there is no contact information anywhere. I made lots of mistakes in choosing medical treatments, but this is by far the worst mistake I've ever made. It didn't take away any of my allergies. Rather, it made it even worse. My face is permanently inflamed, and has to be treated with steroid cream. The practitioner was boasting and bragging about how he's going to get me off all the meds with this technique, but instead, I ended up taking 50mg prednisone to control my face. As a result, I now have osteoporosis, and many other terrible side effects from taking the poison drug. I wish I could sue the practitioner, but I'm too sick to go through that. So, whoever wants to try this method, please be careful. This can do lasting damages if the practitioner doesn't know what s/he's talking about, or when s/he doesn't know how sensitive your condition is. I wish I

could rewind the time 8 years and start all over again. NEVER NAET!!!!

This book is merely an advertisement for the Doctor's Treatment Program and provides little or no information on curing anything! I'd give it 0 stars if I could.

Book was filled with stories of patients and had very little 'roots'. The metabolic process is swept under the table so there's little explanation of why NAET should work. I considered doing NAET treatments and this book certainly didn't help encourage me to take the time and money needed to proceed for treatments.

Dr. Nambudripad's revolutionary treatment for allergy works for me. The procedure is simple, non-invasive, and effective. I would recommend the treatment to those who do not want to have needles poking all over your body, or taking medicine that has potential side effects. I have thought of writing a thank-you letter to Dr. Nambudripad's for her help rendered, but I changed my mind after bought this book. If I did, you, the next reader will pay for my commendation to be printed. This book is full of testimonials, more than a hundred of them occupied a lot of space. Also, large proportion dedicated to traditional meridian theory which can be found on many Tai-Chi and Chi Gong books. Little useful information is hidden between those big blocks. Someone else's story will not help your allergy condition. In fact, you may become allergic to the excessive usage of ink and paper. The vital information I would expect from this book is "how the treatment can be done", or "how can I help myself with these principles", and the information is deliberately omitted by Dr. Nambudripad's to protect her "business secrets". You will only find elementary knowledge a NAET doctor will probably tell you during your office visits. You CANNOT improve your allergy condition by reading this book. You have to go to the NAET doctors. Advertising is possibly the main reason this book is published. To conclude, I will recommend the treatment to you. Don't buy the book!

This is a good book for everyone to read. It deals with how your body works electrically. If you have allergies, you should read the book and find a NAET office.

The sellers of Dr. Nambudripad's book were very apologetic and willing to give me and did a full refund for this very important book, the first of Dr. Nambudripad's excellent explanations of her allergy elimination technique. The pages of their send had a chemical smell. I cannot tell yet, even though I've been airing the book outside for days, if it were the paper which might have absorbed a

spray in the place it was published or printed; or, the ink. It is most likely the paper. The same smell somewhat diminished is on another but updated version of this book from another seller, in another city, etc., confirming it has to be the publisher or printer. I have in other years purchased the book and do not ever remember smelling this smell that makes one feel a little repelled. What a shame! Please get a cat if that is the problem in the warehouse. I would like to see every doctor, every person have a copy of this book and learn to use naet after a first visit to a doctor or nurse or practitioner. It would be necessary to find the cause of the smell and get it out of there. The ideas are revolutionary--people can learn to cure their headaches, find their way, study straight instead of dyslexically, be less sad and more.

Have ordered and reordered to give to my friends and even a priest who prays for hard cases. It helped me get rid of a lot of allergies in concert with my N.A.E.T. doctor....who has taken a lot of N.A.E.T. classes.
