Customer Reviews

This is a wonderful production of Narnia. It's easy to stay awake because it's acted out instead of read. The map included is also great! Made our time in the car go by quickly!

One of the best audio series I've heard. Dramatized, yet almost exactly true to the book, word for word. The only qualm is Aslan's voice, but nobody seems to do that right.

We have listened to these over and over and over in the truck on so many trips. So. Many. Trips...

We already had a CD version of this in our personal collection. We bought this set to use in our Sunday School class, where we are studying the Chronicles of Narnia and their relationship to the Bible and Earth. This set is done in tracks, with each chapter in a track. Our other one made it too hard to find where we left off. Thanks

Gift for my wife. She loves being able to have it play while driving to/from work.

I will give this 5 stars because we do love listening to these. BUT... I am not a personal fan of Aslan's voice in these! The kids don't seem to mind. :)

This is the 3rd set of these our family has owned. They are fantastic! As our children grow up they do a little friendly fighting over who gets the Narnia CD's... this set is for me!

I have an older set of these and purchased 2 for my adult sons and their family. This is dramatized and is done exceptionally well. I try to listen to the set at least once per year...while driving around town doing errands. The music, the appropriate background noise, the "actors" make this come alive!
