My boyfriend and I were having some trouble a few months ago, and even though I loved him more than anything, I thought it would be best to end things, because I couldn't get over things that happened in his past relationships. After a few weeks, I realized I couldn't live without him and purchased this book to help me get him back. It worked like a miracle, and the instructions were so clear and to the point. The book taught me not to be cold towards my ex, because it wouldn't help things and also encouraged me to not use the guilt trip method, just because we have a child. I followed all the instructions and can happily say that things worked out and we are back together! This is great for people who want to know How to Get Your Ex-Boyfriend back and I highly recommend it!

I have been working on repairing a marriage in which my spouse has stated he is done and punctuated that with an affair. I am not ready to give up and have been seeing an individual counselor as well as going to couples counselling. I had already arrived at many of the suggestions this book makes, but it gave me affirmation that I am on the right track. This week he told me he is not planning on going anywhere just yet. So I have faith that it is going to work, but as the book says: take care of your own issues and don't depend on your partner for all your needs. Then whether it works out in the end or not, I will be ok.

Great quick read with good points. I would recommend to those on the brink of divorce. I will try applying these methods.

To me, this was largely quick-fix kind of the stuff without much substance... And the price for how many words you actually read is steep.

Quick read but a bit unrealistic. Staying positive is key to any relationship but by not talking about what led to the split won't heal the marriage.

I have used these tips, and it helps. I have used them and my wife and I have grown closer. We are not all the way back, but she is no longer asking for a divorce. We are talking more and even laughing and smiling with each other.

Real no nonsense read. Not bogged down. Illustrates proper focus and shows the direct path to making everything better than imagined.

i thought the book had some good principles by which I should operate haven't been separated from my wife it has been a hard time but i think the book of help me do the right things in a difficult time the price was great and being an ebook it was received immediately
