Grade Level: 1 and up

Customer Reviews

I can't be happier with ALL KUMON 1st grade books. I work with my 6.5 year old son as a supplement to his school work. He actually enjoys his homework. Each lesson gently prepares him for the next milestone. I like the way the books are structured.

must for kinder

Love all the Kumon books. MY daughter learned to tell time on an analog clock with one of the books. Love, love , love! You can't go wrong with any of these!

My daughter has progressed very well using this as part of her home-school curriculum. We are very glad that Kumon has these workbooks available for us to use. They are a great resource for us. We also use Kumon Word Problems and Geometry & Measurement for math and recommend it as

well.

This series is great. Builds gradually, with the child. Age appropriate!

It's Kumon, it has to be good

I decided to purchase this because I thought my son need learn to read before he starts school this year. It looks very nice and seems very helpful for kids to under stand how to read the wards. I like it.

This looks like a great activity book to help my daughter bridge school over the summer.I look forward on working through it with her.
