Undeclared: A War Widow's Story Of Faith And Survival

Synopsis

On July 22, 1986, Wendy Taylor became a soldier's wife. She wasn't even twenty years old yet, and neither was he. For the next two decades, Wendy remained a soldier's wife. Through basic training, deployments, and promotions, she was by his side--sometimes physically and sometimes emotionally. Being a soldier's wife is not easy. Every time he left, she ached for him; but she never imagined the ache would become a permanent fixture in her life. On January 20, 2007, Wendy Taylor became a soldier's widow--a part of the Gold Star Family, an exclusive family no one wants to be part of. Her husband, Michael Taylor, was killed when his Blackhawk helicopter was shot down by the enemy. This book is her journey learning how to go on after that. It is an honest--sometimes heartbreaking, but always hopeful--story of survival in the wake of life-changing loss. It is her how-to guide on how she remained Undefeated.

Customer Reviews

I thoroughly enjoyed the book. While I have not lost someone due to war, it makes me appreciate

even more the great sacrifices that these brave soldiers (and families) make to protect this country and our freedoms. Thank you, Michael Taylor and family! Thank you for sharing this with the world Wendy. You are brave. Your words will be an inspiration and bring comfort to many.

I was so very Blessed to have been able to download this e-Book (while it was available). WOW....what a wonderful, thoughtful, and compelling first person account of a beautiful woman (and her two children) who went through hell, and came out on the other side shining like the sun. Miss Wendy shows us all that God can bring great good from the most chilling evil imaginable. I am closer to Heaven because of her and this book. Tell EVERYONE you know who has lost someone too soon, about this book!! PS -- I am told this book will be coming out under a new publisher but same name. UPDATE 22 July -- this paperback is now available for preorder and will be released on 1 August 2017 under the New Publisher --> Rozzocasa.

I saw Mrs. Wendy Taylor in an interview on Fox News about her book, and could understand that her book was to be worthwhile reading, by what she said. I bought the kindle version and found out I was right. She shares her very personal feelings and experiences regarding the loss of her husband, Major Michael Taylor, pilot of Black Hawk Helicopter that crashed after being attacked, killing all twelve military members on board. It is a rich text, which no doubt can be of help to any person passing through a very difficult time, as the author was. It is a message of hope, optimism, resilience. Mrs. Taylor highlights the importance of family, friendship and faith. It is so evident that they loved him immensely. So the magnitude of their loss was equivalent to that immense feeling. Through this brief text I wish to thank Mrs. Taylor for her book, and also for the heroic service of her husband and father of Justin and Meredith. You must be proud of him and remember him with happiness and faith. I believe that is what he wants. As Mrs. Taylor says to all those in a difficult situation: "The sun will shine on your face again".

A beautiful story of love of God and the gift of family. Its difficult to imagine the grief endured by families who lose loved ones in war. My prayers are for all those who are experiencing grief and the hardships of war. Thank you for sharing your experience. I know it will help many.
