It was a very helpful book. I purchased it for my online business class and it greatly helped me understand most of the topics and definitions. I also liked that every new concept (and I truly mean every one of them) was also accompanied with an example that really helped you learn. The book could be difficult to read sometimes but the examples were very well explained. Actually the book pulled a lot of real life case as well that made the reading very interesting.

Surprisingly interesting book. It was an optional purchase for a class I'm taking but I really like the cases and stories in the book. Cheeseman puts a little bit of humor into it too. The content is interesting and thought provoking, chapters are succinct and not drawn out. Good book even if you are just casually interested in business law - a lot of the material is generally useful for any person to know, like contracts and liability.

Great case studies.

Purchased book for 90 what a great buy

Be aware - you can only download this book twice. I attempted to download to three devices and had issues. From what I understand, this is common amongst text books and this publisher.

Well organized.

I rented this book for my class. Very happy with The quality of the book and how clean the book is on the inside. The book was as expected and a requirement for my class. The book is easy to read and has some great information inside and easy to read And understand.
