Revolution

Synopsis

We all know the system isn't working. Our governments are corrupt and the opposing parties pointlessly similar. Our culture is filled with vacuity and pap, and we are told there's nothing we can do: "It's just the way things are." In this audiobook, Russell Brand hilariously lacerates the straw men and paper tigers of our conformist times and presents, with the help of experts as diverse as Thomas Piketty and George Orwell, a vision for a fairer, sexier society that's fun and inclusive. You have been lied to, told there's no alternative, no choice, and that you don't deserve any better. Brand destroys this illusory facade as amusingly and deftly as he annihilates Morning Joe anchors, Fox News fascists, and BBC stalwarts. This audiobook makes revolution not only possible but inevitable and fun.

Best Sellers Rank: #12 in Books > Audible Audiobooks > Humor > Political Humor #39 in Books > Humor & Entertainment > Humor > Political #135 in Books > Audible Audiobooks > Biographies & Memoirs > Historical & Political Figures

Customer Reviews

I know people think he's nuts, & maybe he is. But I thought his analysis of the contemporary political landscape was spot on. Not a call to arms, but a suggestion that we shut up, look inward, listen to what we here, & THEN look around at what's happening & what we can possibly do to affect change. This guy shut up? It's hard to imagine. I enjoyed it & turn back to it often.

I have enjoyed reading this book, but it does get a bit wandery at some parts, good points all around and worthwhile if you are fed up with how crappy the system has been.

An amazing man and we need to have people like this who are not afraid to speak out of context against the mass. I didn't even see the LOVE in the title until it came in the mail. This sums up what his goals really are. I believe he comes from a place of love for all human and is tired of the BS, I'm grateful to him. Keep it up!

I bought this book for my fiancÃ© just because and he started reading it immediately. Talks about topics in book with his friends and I all the time. Seems he is really enjoying it. It arrived in great condition and when it was suppose to.

In a funny way Russell Brand Brings a pack of ideas that will hopefully bring a new society. Despite all the critics this is a book that is written in a very honest way allowing us to understand what's wrong with this world and how to change it, starting with the most important thing, the change within.

Insightful, outrageous, truthful.

An important perspective everyone should be exposed to. Whether you agree with Mr. Brand's opinions or not you can learn a lot about yourself and how 'the other side' thinks and feels about issues by reading a variety of works. I, personally, think he's spot on. Excellent.

The revelations regarding corporate control and greed in our dysfunctional capitalist society are astounding and gut wrenching. Brand eloquently puts forward ideas for how to change this system and they don't seem to far fetched. Be prepared to finish this book a bit more informed and a whole lotta inspired.
