great book..... and I just LOVE Dragons.....

This wonderful fantasy coloring book contains 25 unique designs but you are given two copies of each there is a total of 50 design pages. The line drawings are of various types of dragons. There is a nice variety of dragon styles with all having a serious look about them. A few seem gentle in the hands of their human, with even the baby dragons, there is no mistaking that each one can be ferocious when necessary. Gray is used in a number of the illustrations for shading purposes. It's easy to color over and get a nice shade effect. The designs are quite detailed and some contain small and intricate areas to color. While you can have access to .PDFs when you purchase this book, my review is based on the book as it is received from . That way you will know what the pages look like and how they accept color. I like that the publisher provides the digital version as well so you can choose the paper you wish to use and/or to color the pictures as many times as you choose. This is what I found while coloring in this book and testing the paper with my coloring medium: 25 x 2 each intricate and detailed dragon inspired designs for a total of 50 coloring pages. Designs are printed on one side of the page. Paper is typical of CreateSpace: white, thin, slightly rough and non-perforated. The back of the page is printed black. The designs do not merge into the binding. There is a heavy framing line at the outer edges of the design. Glue Binding (there is room to cut the pages out if you choose to do so.) Though you cannot see the bleed-through easily due to the back of the page being printed in black, I recommend the use of a blotter page when working in this book. I use a page of card stock or several sheets of heavyweight paper under my working page. It keeps seeping ink and marring dents from ruining the pages below. Alcohol-based markers bleed through the page quickly. Water-based markers bleed through in spots. Gel pens and India ink pens leave shadows on back of the page. India ink can bleed through if you apply heavily or multiple coats. Coloring Pencils work well with this paper. I found that I could layer the same color for deeper pigment or multiple colors and I could blend easily using a blending stick. I tested both oil and wax based pencils. I also found that hard lead pencils leave dents through the paper.

Jade has outdone themselves yet again. This book is fantastic. The images are well done and beautifully detailed. A perfect book in Fantasy. I recommend this book to anyone. Even the men in your life who like to color will love this book. These images are amazing. Single Sided pages. 25 unique images in this book. TIMES 2. You can color them again or with friends and family. Also a FREE PDF so you can print on your favorite paper such as card stock or watercolor paper. Access to Jade's Favorites collection for samples of other books. This value cannot be beat. I recommend this book to everyone. Enjoy, relax and happy coloring. I am enclosing some images to this review. You must see them. They are just fantastic.

I enjoy Jade Summer's coloring books very much and I was ecstatic when I saw that she had done a book of one of my favorite things... Dragons. I was definitely not disappointed. I was very impressed with the illustration of a dracolich (zombie dragon). There were dragons of all kinds, and very few humans, which I considered a very good thing. Very few humans can be friends with such magical creatures as the dragon. If you're a dragon lover, then you will love this coloring book.

I have most of this artist's books. As soon as they are available I run ahead and purchase them, always pleased. The designs are a mix of simple and moderate difficulty but what I like most is that the pictures lend to a more creative coloring. Giving space to blend, shade and maybe even add some doodles if you're inclined. And seriously, you get 2 of each picture---a great value. I highly recommend if you enjoy cute art, if you enjoy swears look at her other books!

4 and a half stars We thoroughly enjoyed coloring in Dragons by Jade Summer although we are not finished coloring through it yet. The pictures were very detailed and the art was stunning. I personally preferred to color the women with the dragons, my personal favorite was coloring the naked woman with holding the baby dragon. I'm not a big fan of coloring dragons more the ladies in the pictures but my husband loved to color the dragons. We made mixed media, using various mediums to color with and we both have to agree that it made the pages we colored come to life. The dragons themselves were very intricate, which was something my husband loved but I found it a little difficult to color.

Just looking at the cover of the adult coloring book made me fall deeply in love with this dragon. He is just so precious. Although he looks ferocious on some of the pages of this book, I could not help but want one of these dragons to ride upon and travel through the galaxy. Every page has

something to offer in the way of adventure in coloring. I love the colors red, orange, and yellow...this book allows these colors to be used over and over again. It's all about dragons and all about having a lot of fun.

I usually do not buy Jade Summer's books but this one is well worth it! The art work is great and all are on one side of the page. She has added black to the backs of the pages to minimize bleed through and the paper quality is very good. As an added bonus there is a free PDF with each book.
