The Practice Of Magical Evocation

Synopsis

A tireless worker for the Light, Franz Bardon left behind him four legendary books which have become acknowledged classics of occult literature. The Practice of Magical Evocation is the second work in Bardon's opus, and thoroughly unique. In magical terms, the book is a practical guide to the proper evocation of and communication with spiritual, magical and divine entities. It is perhaps the only truly significant modern study of direct contact with the universal teachers. The other major works in the field are products of the Medieval, Renaissance, and Reformation periods. The Practice of Magical Evocation is also unique in terms of its depth and complexity. Not only does it provide a powerful intellectual rationale for and explanation of the art of evocation itself, it also outlines the actual practice of the art in great detail, including instruction as to the creation of magic wands, circles, garments, and so on. This book provides a fascinating glimpse into a magical universe.

This book is for the serious student of magick. Unlike most books on this topic, one will find many unveiled truths (Secrets) within its pages. It is written by a true master.

Great work, i read it online (free), so i just had to buy the printed version.

I received the book on 12-01-2016 much earlier than expected! I love it, in part because it is in excellent condition. It might as well be brand new. A Great buy!

For the serious student of Hermetics, this book is a must have. I am a devoted student of the Qabalah and I can't believe I am just now reviewing this fabulous opus.

this is a perfect book and anyone who is an occultist should purchase it! Also before use id suggest to follow initiation into hermetics and have done at least 2 years of continuation meditation before use! this would be essential!

Very Good!!
