Epilepsy And Seizure: First Aid, Preventions, Symptoms, Causes, Diagnosis, Treatments, Disability Act, Help, Research

Synopsis

“Although, your health condition may impact your everyday life, do not let it define who you are.”

• REMEMBER: A person is only considered to have epilepsy if he or she has two or more seizures. Also, if seizure only occurs as a result of a temporary medical condition, the person is not considered epileptic. In addition, epilepsy is not a contagious disease, although nearly 150,000 Americans develop the condition each year. For more information and complete understanding of epilepsy and seizure, this text covers every aspect of the disorder and includes: (1) description of epilepsy and seizure, (2) when are seizure not epilepsy, (3) first-aid for seizures, (4) signs and symptoms, (5) causes, (6) epilepsy on infant and children, (7) epilepsy and pregnancy, (8) the different kinds of epilepsy, (9) diagnosis, (10) treatments, (11) preventions, (12) risk factors, (13) accommodation of employee with epilepsy, (14) disability act and epilepsy, (15) researches, and (16) available clinical trials for those who wants to help and try the latest in treatments. Thank you and may you have a good understanding of the different aspects of epilepsy. Take care, and as always, be well!
