Her interests are in the areas of drug information, formulary management, adverse drug reactions and medication safety.

Please require any other textbook if you are teaching a course for Pharmacy Techs! The exalted Bonnie Bachenheimer, PharmD on high, has deigned to pass on information for lowly pharmacy techs. Her prose is condescending and borderline insulting. Ms. Bachenheimer, please write a textbook for Pharmacists, and let the techs squirm in the sewers you feel they belong in. Teachers, please consider using a text written by a Pharmacy Tech.

This book has great essentials for getting prepared for the Ptcb exam. I really liked it and used it all the time.

great book

These are exactly what I was looking for and less expensive than I could get locally.

This is the book required for class, but it has mistakes in formulas and is not as easy to comprehend as some other books, but does have the answers to problems and self assessment questions.

Outstanding book recommended by many pharmacists.

Full Preparation for Certification exam

Just what I needed!
