Wonderful and helpful words for second grade. On one side there is a blank with a picture describing the word in question, and on the other side is the word itself spelled out. When I used this with my son, we would play a "game" and I would show him the card, and we would see how many words he could guess correctly..But, since, reading is his weakness, I would simply show him the side with the word written on it, and have him just "read" it out loud. There are a variety of ways you could use these cards. I homeschool , and you can use these any way you want..I highly recommend these.

Bought these flashcards for the girls I tutor. They definitely work. The girls have gotten better at spelling & have learned some new words. The girls love studying the flash cards. Would have 5 stars but i think some are way too easy for second graders.

What a relief! Whether it's reading or spelling -the flashcards are your best friends.

easy to travel with
my kid only play once and didn't like it any more...

Time for the 3rd grade set! We love the pictures so she can see what I'm saying as we do our spelling tests. We homeschool and they're very handy.

These cards are great as a learning tool i use them for my son which helps alot with his spelling there are alot of cards that come in the package which means your child has a broad spectrum of words to explore

My 6, almost 7 year old, loves these cards. He shows so much interest from the start. Love the program, love the progress made already. Such a great variety of words.

These Flashcards are great practice materials in it to keep my child sharp, good for summer assignments or for additional work during the school year!Good quality, shipped quickly!
