We've also included 10 blank cards kids can use for new or personalized vocabulary. Plus, it's easy to keep track of which words your child has learned with the color-coded meter on the side of this box. The cards work great for my classroom. I pull out the cards while the students are line, or when I have those extra few minutes to fill. Also, I do LOVE the fact that on one side of the card, the word is written in the standard spelling, while on the other the word is broken up into syllables, which is PERFECT for my classroom of English Language Learners. For Sylvan Learning and publisher: The font size could be larger for both the words and definition. There is a lot of useable and open space on the cards.

As they said learning is fun. My kids enjoyed studying vocabularies, new vocabulary for them. We used it for spelling, making sentences, proper pronunciation.

I bought these for my 2nd grader. Of 80 words we have done so far, he knew only few already. I don't even have to ask him to do these. He loves to read the word and try to guess the meaning by given sentence. The packaging is great. It even comes with 2 inserts to separate the ones you are doing from new and already done. There is a marking on the box to show how many have been done to keep the progress.

Vocabulary, definitions, help with pronunciations and examples of the words used in a sentence. Buy this!

Great vocabularies. My daughter likes to learn it.

Flimsy material. I was expecting thicker paper.

Love this for my son who is in the first grade! However he already knew most of the words but he is advanced but it def helps with him learning how to sound the words out by how the words on the card are broken down into syllables!!

This has been very useful in tutoring an ESL student for her third grade vocabulary star test.
