Customer Reviews

Jay M. Shafritz is Professor of Public and International Affairs at the University of Pittsburgh in Pennsylvania. He is the author, co-author, or editor of over forty textbooks and reference books on business and public administration. He holds a doctorate from Temple University and an MPA from the Baruch College of the City University of New York.J. Steven Ott is a professor and dean emeritus at the University of Utah. He has written numerous books on organization theory, organizational behavior, nonprofit organizations, and organizational culture. His recent journal articles have appeared in the International Journal of Organization Theory and Behavior, Public Organization Review, Public Performance & Management Review, Public Administration Review, and Public Integrity. He teaches organizational behavior, organizational leadership and change, the nonprofit sector in society, nonprofit organization management, and organization theory. Ott worked as a management consultant to organizations in the nonprofit and public sectors for 26 years before joining the faculties at the universities of Maine and Utah. His Ph.D. is from the University of Colorado, his M.S. from the Sloan School of Management at the Massachusetts Institute of

Technology, and his B.A. form Pennsylvania State University.Yong Suk Jang is a professor of Public Administration at Yonsei University. He received his Ph.D. in sociology from Stanford University and taught at the University of Utah (2001-2004) and Korea University (2004-2008). His current research interests include macro-comparative analyses of nation-states and organizations, governance, and neo-institutionalism. Recent publications include Classics of Organization Theory, 6th & 7th ed. (Wadsworth Cengage Learning) and articles in Administrative Science Quarterly, Asian Business and Management, Sociological Perspectives, International Sociology, International Journal of Comparative Sociology, Social Science Computer Review, Development and Society, Korean Public Administration Review, Journal of Korean Association for Policy Studies, The Journal of Educational Administration, Review of International Area Studies, and Quarterly Journal of Labor Policy, Human Resource Management Review, and Korean Journal of Sociology.

I am in an Ed.D. program for administrative leadership; this book is a core or essential text for this program. I am using it currently to write a research paper and will use it again for my qualifying exams. I find that this book has been well put together and leads to understanding of critical organizational structure. Further, this text was used by the professor that taught our organization theory class. I recommend this text to individuals who need primary source documents, a requirement in my program, to analyze organizations----- this book provides an solid basis for finding how the original authors delineated their theories and/or hypothesis on organizations. It is well worth the cost!

Yet another informative text used during a Grad School class in Public Administration.So much information, a little bit of a dry read, but definitely provided a great amount of information for the class.

Not easy to read - kinda dense.

It does not even have an index

As far as the price of this book is concerned, this was fairly cheap. As far as the price of textbooks in general: Booo!

It's an okay reading. Don't really like its organization.

Good condition

good
