My daughter needed this book for an English summer reading project. to the rescue. The library wait list was silly long so we just ordered it. It is a good quick read great for readers with a blossoming interest in mysteries. There are other reviewers who have a nice break down of the story

content so I won't get into that. I just wanted to give a good review for the book author and . If you have a reader with a voracious appetite this will get through an afternoon but an afternoon well spent.
