A Dictionary Of Advanced Japanese Grammar (Japanese Edition)

Synopsis

The acclaimed, best-selling Japanese grammar dictionary series now complete! A Dictionary of Advanced Japanese Grammar, the third volume in the widely-acclaimed, bestselling Japanese grammar dictionary series, is designed to introduce students of Japanese to advanced-level Japanese grammar expressions and help them deepen their understanding of the critical and subtle differences in meaning and usage between the target expressions and other synonymous expressions. Following the same format as the previously published volumes, A Dictionary of Basic Japanese Grammar and A Dictionary of Intermediate Japanese Grammar, the book offers approximately 230 Japanese grammar items that are believed to be highly important for students striving to master advanced-level Japanese and also for instructors who teach Japanese at that level. This book is especially useful when reading advanced-level materials such as newspapers, professional journals, technical/business/legal documents, academic papers, and literature.

The acclaimed, best-selling Japanese grammar dictionary series now complete! A Dictionary of Advanced Japanese Grammar, the third volume in the widely-acclaimed, bestselling Japanese grammar dictionary series, is designed to introduce students of Japanese to advanced-level Japanese grammar expressions and help them deepen their understanding of the critical and subtle differences in meaning and usage between the target expressions and other synonymous expressions. Following the same format as the previously published volumes, A Dictionary of Basic

Japanese Grammar and A Dictionary of Intermediate Japanese Grammar, the book offers approximately 230 Japanese grammar items that are believed to be highly important for students striving to master advanced-level Japanese and also for instructors who teach Japanese at that level. This book is especially useful when reading advanced-level materials such as newspapers, professional journals, technical/business/legal documents, academic papers, and literature.

With this and the previous basic and intermediate books I have gotten more Japanese grammar learned more thoroughly than any regular textbook ever did. These books are INDISPENSABLE. Fantastic. Well worth the money. I cannot praise them enough.

An excellent way to learn tricky difference in japanese language, easy to understand and well explained

Product arrived promptly and in great condition. The book contains a wealth of grammar. A must have for any intermediate or higher level student of Japanese. The example sentences can't be beat. And if you're a huge nerd for this stuff like me every page will make you giddy.

This text will, admittedly, be challenging to use IF your proficiency in Japanese has yet to have reached the point to where you can fully digest the material within its pages properly. If it is sufficient, however, you will NOT find a more comprehensive and useful text on the U.S. market for beginning about the challenging process of acquiring a strong understanding of "advanced" Japanese grammar. I purchased my copy when it first hit the shelves in Japan and still reference it today. It is a fantastically well-done work of scholarship! do not make this assertion lightly. I have taken and passed Grade 1 (1 kyuu) of the Japanese Language Proficiency Test and enjoyed the great blessing of having had been able to have had trained in Japanese (the school's first language) at the Defense Language Institute in beautiful Monterey, California, (Where I, incidentally, earned my first degree and became a DOD-certified Japanese linguist). Please remember. . . Japanese is not like Spanish or French. It takes a VERY considerable investment of time, effort, and personal treasure (or, if you live a charmed life, that of your sponsor) to acquire a functional proficiency in it--still more, for a working proficiency. Don't rush it. Just as you have to go through the basics in mathematics before graduating into algebra and beyond, so too, must you in your language studies (all the more, if that language happens to be Japanese, Korean, Arabic, Pashto, or Chinese!). If you try to hit the highway too soon, you will likely wipe yourself out. (You could become discouraged or,

worse still, get into the habit of speaking atrociously bad Japanese, because you haven't properly mastered the basics yet.)

Seiichi Makino is God. I have never had so much fun reading a dictionary. BUY. Nice to see Romanji go away. I want a signed, hard-bound edition!

heavy on the "journalist" end of the language, otherwise, excellent.

I found this one and the rest of the set not so user friendly at first but after getting into it and getting to understand how it is set up, you can find what you are looking for but still some things needed more explanation because of ambiguity in the English language.

Excellent Book for Japanese Grammar. Well, one could ask why I am writing a review in English? $\tilde{A}f\hat{A}\tilde{S}\tilde{A}$ $\hat{A}\tilde{S}\tilde{A}$ $\hat{A}\tilde{S}\tilde$
