I already know how to speak Cajun french, but with this book the spelling will be available. I've learned words that I had forgotten, or didn't remember how to pronounce. Thanks for the great book. MERCI, Rebecca Champagne

This is helping me learn how to read and write our Cajun French language. Have spoken Cajun

French all my life, now learning to read and write it.

Excellent all-around Cajun French guide. It is very accurate, even though there are a number of Cajun dialects. - A Louisiana Cajun bookseller.

This book does include a general pronunciation guide at the beginning of it. However, for each word within the dictionary, there is no pronunciation for that specific word. So, when I'm wanting to learn to pronounce words from cajun songbooks, I have to take the word, then go through the pronunciation guide at the beginning, hoping I don't miss or misinterpret any of the rules. I guess this forces you go learn the rules, but I'd prefer the pronunciation spelled out for me on a word by word basis.

Just what it says, it's a dictionary for Cajun French words and helps a lot when you get stumped. You have to be careful sometimes, some Cajun words have different meanings than proper French. It's easy to read and a quick look-up!

A very good book very informative

Very helpful book, but a bit weak on pronunciation.

Extremely happy with products and delivery .
