# Now You're Talking Japanese In No Time: Book And Audio CD Package (Now You're Talking Series)

## Synopsis

This attractive, illustrated traveler's aid consists of a Japanese language phrasebook, *Getting By in Japanese*, with two accompanying audio compact discs. The phrasebook has been updated and re-designed in this new edition. Perfect as a take-along guide for visitors to the Far East, it features city maps, information on public transportation systems, general information for visitors to Japan, and bilingual lists (phonetic spellings with English translations) of more than 1,500 most-often-used words and expressions for travelers. The book's page edges are color-coded by topic for quick reference. Two audio compact discs, which replace the older cassette tapes in previous editions, give international travelers approximately 90 minutes of bilingual dialogue. They dramatize typical situations and conversations at airports, hotels, stores, taxicabs, and the like. The CDs come with an added bilingual script booklet.

## Customer Reviews

This book was great because it has the english translation, the roman letter-written Japanese word, and the Japanese characters all right next to each other so we were able to pick out what we wanted to say, point to the Japanese characters and actually communicate with people. Super helpful. Would definitely recommend this book if you speak no Japanese!

I carry this everywhere! Has tons of words and phrases in colored categories for quick reference. I live in Japan and am still studying japanese and find this extremely helpful when adventuring into

different stores and restaurants. I would and have recommend this to anyone. Also has a small english->japanese dictionary, pronunciations of all words and phrases, and correct spelling for each phrase.

Best Japanese phrase book. Kanji and Romanized versions of each phrase, Good sturdy cover, well organized, fits in pocket, short dictionary in the back.

There are far too many phrase books out there that give you some fairly basic phrases that you may think will get you around...but they don't. When I flip through something like that I wonder how they manage to be as lengthy as they are. Simply put, this is not that book. This little pocket book has several phrases for practically any situation you'll find yourself in as a tourist, and because of that it's absolutely invaluable.

Filled with information for nearly every occasion. It is what it says it is. If you want to learn Japanese, I recommend looking elsewhere. This is a phrasebook.

This was the first phrasebook/dictionary I ever bought. I was very happy with it! It explains things in great detail, keeps things formal and gives you phrases for just about any situation. I always recommend this to my friends who are trying to learn Japanese. =)

Thank you very much, I'm really happy and enjoyed reading the book. I received before schedule :)

I used this book in Japan...very helpful. I love the color-coded sections to easily find conversation elements associated with whatever situation I may have been in.
