Customer Reviews

Reviewing my parents civics class

I am trying to get a bucket list of information concerning the Court System of the United States of America and this book, Federal Rules of Civil Procedure: With Added Internal Cross-Links Formatted and Arranged as an Ebook 2013 Edition [Kindle Edition] lets me keep it at hand to go

over the Civil protocol of our court system. It is dry reading and if you are interested in the system of how our courts cases are laid out, how the legal system is laid out, this book will give you more than you will ever need, unless you are studying for your law degree and the test, then you might need to read specific rules for the state you are trying to get a license in.

Good Reference source. Depth of the material has firm potentials to cover further along studies.

I was thrilled to find the federal procedure rules for a buck as ebooks. shared with my instructor only to learn ipad offers same for free.

Ok book to get to know about law

Ok

Civil procedure, in any language, is a really tough subject to be explained in a single book. But this book exercised and succeeded in doing such a thing. This book is a must-read piece of work for any legal practitioners.

This is thorough and searchable. Way better than a paper book. I get so spoiled by e-books that when I have to use a real book and need to find a specific sentence, I get ticked off. Why can't real books have 'control+F'?!?!?!?!?
