Founded in 1947, Hal Leonard Corporation has become the world's largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

The collection is good however, the songs are almost exclusively for the older MT singer; heroines who have adult children. So, in my opinion, this volume 6 is not a good anthology for teens or young adults because of the age and theme challenges inherent in the songs.

This is a great collection of songs. A few standards and some rarer songs that I had never heard of before, but I am glad I got introduced to them. I have a large collection of these anthologies that I buy to be able to use for auditions for shows, however, I am finding that these books don't serve that purpose for me. Most of these songs are way too hard for a piano player to play at an audition. No one in their right mind would go to an audition and hand the pianist a song with 6 sharps, 4 key changes, and frequent meter changes. There is one song that goes from 7/8 time to 3/4, to 5/4 time all in one line of music! Unless the accompanist is very familiar with the song it is unlikely they would be able to sight read a song like that. Some of the songs are very long too- like 15 pages. Also not good for auditions. And probably too long to be sung anywhere except if you are actually in the show. There are a few songs that would work-usually the older Rodgers and Hammerstein material that would be appropriate for auditions but there isn't much of that. So all in all, a solid book with some great songs, but beware of buying if your goal is to gather material for your auditions.

Good.

As an owner of all the other volumes, I can say this is definitely my new favorite! A great group of songs!

I try all the products that I review for at least 15 days -- My hope is that if there is something that is an issue that I can spot it. Singers Anthology is always a terrific book..Disclaimer :- I have received this product at a slight discount in exchange for an honest review. My reviews all go by the same breakdown on my star rating of a product: 5 stars "I love it! It is awesome and I highly recommend everyone to purchase this product!" 4 stars "I like it, but there are some flaws. I

would purchase again.3 stars - It was okay, but I would probably not buy it again unless there are no other options.2 stars “ There may be worse products out there, but you can definitely find better choices.1 star “ I dislike the product, enough said “ I cannot tell you no, but this is as close to that as possible..

This book has an excellent collection of musical theater songs perfect for the soprano voice! I'm very happy with it! My only warning would be if your are not a more advanced piano player - a lot of these arrangements are too difficult for me, however many of them have the guitar chord progression that I can play with well (but I didn't buy it for the piano part!). Someday I'll be able to play these, but for now I'm okay with what I have!

Happy with this book. Glad it comes with digital download instead of CDs like in the past -- much more convenient.

An important resource to accompany the 6th volume of songs.
