Customer Reviews

Very informative, both historically and technically. Clearly, a lot of the information is outdated when referring to current manufactures of products, but the insight Taffin exudes is tremendous.

Good book on large caliber revolvers. Should be in the library of every big bore enthusiast.

I choose this rating because John Taffin is "The Dean" of handgun writers. He is an excellent wordsmith, and very knowledgeable of his subject matter. I would highly recommend this book to both the experienced and novice hand gunner.
