My 29 year old son grew up with little critter books and now my grandchildren are! Wonderful to start helping your child learn to read at home. Funny and relevant for small children and their adventures growing up!

Mercer Mayer always delivers great stories to listen to and to read as a child, and have read to your child. My son loves both of his grandparents and this book helps him to get both of them to read to him at the same time. Reading their individual parts here and there. Great books for kids!!!

This was a gift to my mom so she can read to her first grandchild. It's a very cute book and I can't wait for them to read this together.

Classic book and great for reading with the kids but also a fun way to tell a parent that your pregnant.

I do like the story, but the pages are very thin. Just be careful if you are reading to a very little one who likes to grab the pages! Mine is just 9 months old, I think I will put in away until he is a bit older.

Love these stories. I am collecting these to read to my Grandkids as I did for my kids!

Our grandson loves these books by Mayer.

We love all Little Critter books. You can tell this is a newer one, but my almost 2 year old enjoys the bright colors and variety of things on each page. Fun to read with Grandparents and changing the names!
