There couldn't be a more perfect time than NOW to read this book. Yes ~ Fear is a choice. Don't choose it. I hope everyone struggling with any sort of fear in life will get a copy of "The End Of Fear Itself" ~Really ~ get this book. Read it. I mean it.

Wow. This is just amazing. I struggle with fear and I let it go. This book really touches my heart. The stories that are told in this book are true because I was that girl running from the wolf!! It wasn't easy I had a great friend to coach me along telling me that I don't need that. You have to find your happiness within. This book will help you coach you to be a stronger person who can face fear. I did it and I'm alive! Trust me dealing with fear doesn't happen overnight. But you continue to tell yourself you are a good person you believe in yourself and you don't let fear stop you from being who you are. Thank you for this great book !!! If you are a person who has dealt with domestic

violence please read this book. If you are a person who deals with fear please read this book. I promise you it will change your life.

Life presents the option all day everyday to choose Love or Fear. Whether we're limiting ourselves with our own personal fears or responding to someone else in fear (anger, jealousy, inappropriate voice, etc.) we're in Fear. Thanks goodness Bivans had the courage to embrace his and share what he learned in his own dance with fear.

Author Steve Bivens clearly and understandable guides his reader to not fear.....fear. Wonderfully written-- keeping the reader knowing they will recognize their fear before it has a chance to control one's life. Fear is useful and can teach us many things about life. Mr. Bivens guides us to make this happen.

Thoroughly enjoyed this book and the author's unique style. Extremely good advice on conquering our fears and letting go of negative mind sets. Highly recommended!

I bought this book today because I realized that maybe I really do have a fear of Success. I found the first half of this book quite simple, but the second half found to be fantastic. In one of Castaneda's books, a character says that all paths lead to nothing, so Choose a path with heart. If memory serves me that is. This book talks a lot about living in the now, and not in the future or past. I need to mention that there really is no such thing as time, and the future And past do exist. Sometimes events like the birth of Christ are so significant, That they send waves in each direction. This is called event horizon. I think the author should stick with zazen or Zen meditation, as that will pay Dividends in the future. The fear of inadequacy section was very good, since most problems are due to Low self-worth and not lack of skill or talent. Overall a good book.

I can't imagine anyone not benefiting from reading this book. I've fought the fear demon most of my life and this was a new a fresh look at a subject that rarely is addressed. This author not only addressed the fear that stops us dead in our tracks, but he does it in metaphorical way that is both entertaining and thought provoking. I especially loved the way the author leads with a story that grabs the reader. Then you brings you full circle to look your fears in the eye and see them for what they are. This stuff should be taught to our kids.

I learned about my fears, including one's that that I didn't know I had. I need to use the tools in the book to get passed my fears that have sat in my head for a long time, both unsaid and unknown.
