Customer Reviews

Excellent writing, complex characters, great storyline, and more. This series has everything going for it. I highly recommend this book to you. Enjoy!

Love the series

The shifter Underground is a grass roots group organized to stop The Agency from eliminating Shifters from the World. In an evil pursuit of genocide and greed The Agency is a immoral organization that the Underground can never get the best of, they seem to always be two steps behind. But they continue to fight the good fight. Violent, brutal fighting, hot sexy scenes of love between the Sentinel Shifters and their mates and constant action, intrigue and mystery are rampant in these books. Great characters, strong moral determination and love that carries the Underground to protect home, family and mates. And the mates are as strong as the shifters , great teamwork! Excellent series.

I first read these on Kindle Unlimited...They're amazing, which is why I bought them! This series spins off of the Jade crew series (which I also recommend very highly) and carries on with the storyline.

Enjoyed reading these books, I have read everyone independently, they all have great storylines. Can't wait for more from this author. I received them all as a FREE ARC copy to read voluntarily for an honest review.

I was totally into this series. They kept me interested from beginning to end. I love how the characters grew throughout the book. There's a HEA for everyone and I was so happy with them.

These were some of the best shifter book that I have every read. The was a continuing spin-off story. You will want to read them all. They are edgy, suspenseful and have a love story thrown in. One doesn't take away from the other. They all blend perfectly.I voluntarily agreed to review this book. My review is my own honest opinion.

These bear shifters are amazing! Each man and his mate have a great story! They are all well written with terrific plots. I received this as an ARC and voluntarily reviewed it.
