Technical History Of The Beginnings Of Radar (Radar, Sonar, Navigation And Avionics) (History And Management Of Technology)

Synopsis

The book sets out to explain the basic principles of radar and, where applicable, historical aspects of the evolution of these principles are dealt with. The study, while underlining the significance of the cavity magnetron, purposely restricts itself to the pre-cavity magnetron era of radar. Also available: Television: an international history of the formative years - ISBN 9780852969144 The Correspondence of Michael Faraday, Volume 2: 1832-1840 - ISBN 9780863412493 The Institution of Engineering and Technology is one of the world's leading professional societies for the engineering and technology community. The IET publishes more than 100 new titles every year; a rich mix of books, journals and magazines with a back catalogue of more than 350 books in 18 different subject areas including: -Power & Energy -Renewable Energy -Radar, Sonar & Navigation -Electromagnetics -Electrical Measurement -History of Technology -Technology Management

Book Information

Series: History and Management of Technology

Paperback: 341 pages

Publisher: Institution Of Engineering And Technology (January 1, 1986)

Language: English

ISBN-10: 086341043X

ISBN-13: 978-0863410437

Product Dimensions: 1 x 6.5 x 9.5 inches

Shipping Weight: 1 pounds
