Merch Life: An Introduction To Using Merch By To Design Shirts And Make Money

Synopsis

Merch by is Amazon's newest platform and it allows ANYONE to create print-on-demand t-shirts! All you need is an image, a little understanding of their platform, and you'll have your shirts available for sale on .com. Shirts are printed on demand which means that there is never any cost to you! You upload the image, you set the price (which sets your royalty), and will do the rest. You can make shirts with keywords and capitalize on pop-culture trends, or promote your shirts and send targeted traffic to . When your shirts sell, will make them, ship them, and give you your royalty! This book contains links to 12 password protected videos walking you through the Merch by platform. An additional 7 videos will teach you basic Photoshop.

Customer Reviews

Not sure if this is worth the purchase for some people. I guess if you can't, or don't want to, read the basic information from themselves. I set up my first two designs, then remembered I'd bought this a while back before approval. It only went over everything I had just done myself, relatively easily, I

must add. Then had a bunch of links to the FAQs from . I'd like to say something nice: he has a present speaking voice.

This is a total beginners book. There really isn't much in here that you can't learn by researching online for a few weeks. It is organized and the presenter does a good job of teaching you total newbie Merch stuff. Personally I was unhappy with the book (which is really just filled with info to get to his video series on Udemy) because I didn't learn anything new. He includes a link to a more advanced part 2 series on the same site, but the course is \$50. Not against that just bummed I clearly got the wrong book

I'm sure this is all useful content to complete and total beginners. But for me being a top brand app game maker - it was abundantly too simple with zero examples of sales or CTR or anything that like that. If you don't any graphic design skills - then this book is for you. He does also have some good ideas for shirt patterns that will sell well.

I was very disappointed in this book. He tried to make it a book where you can click on the link to get a video about Merch but it doesn't work for an actual book!

This book really helped me understand Merch and The beginnings stages! I will definitely read more from CHRIS GREEN!

Well done. Short and to the point.

Some of the things in this book I already knew but there was enough information that I didn't know to make the book worthwhile. An easy read and I would recommend to anyone just starting out With Merch.

Great book, very informative clear and concise. I love the fact that it has step by step videos instead of just photos. It is much easier to learn from videos instead of just text and photos. Once again Chris has over delivered in his how to books. I would highly recommend this book to anyone who is serious about learning the right way to use 's newest platform and to get t shirts up on the site quickly and easily and most important CORRECTLY
