Metro Washington, D.C., Street Map Book (Adc the Map People Washington D.C. Street Map Book)

This is an older edition [pub. 2000] that is already outdated. When I ordered it I didn't realize how much has changed since these DC maps were published. I still have to go online to google maps for what I really need. It wasn't worth getting an outdated book map just to save money.

The photo and description led us to believe it was a new edition than what actually arrived.

This map arrived on time and was in very good condition. I like the detail it provides for all the streets around D.C. It complements my garmin well.
