Customer Reviews

Enjoyed this book. I am new to instapot cooking and I think this was a great starting point for me. It explained how to make lots of home made broths, which I loved. I also really liked fact that most ingredients were simple, natural ingredients. I book marked a dozen recipes that I can't wait to try. There were several sections that didn't appeal to me (desserts and yogurt), but that is just a personal preference, not a reflection on the author's work. I just don't do dessert or yogurt. Overall, I enjoyed the book and would recommend it.

I purchased this on Black Friday and while I have used a digital pressure cooker for years, this thing is nothing short of fantastic. In addition to the wonders of pressure cooking, I love the yogurt feature. I will never buy store bought yogurt again. I also made cheesecake (wonderful), baked goods (very moist) and lemon curd. In the short month I have had this I have definitely got my money's worth.

A friend of mine gifted me an instant pot about a month ago and I had absolutely no idea how to use it and what kinda meals I could prepare in it. So, I was naturally googling stuff and ended up buying a couple of recipe books and accessories. About a week ago while clearing my Kindle, I found this just sitting on my bookshelf. So, I picked it up and started flipping through. I found a bunch of cool recipes that I could've tried but I just ended up following a brownie recipe and it turned out really well. After that, I just had to give a few more recipes a shot and trust me, I've used my instant pot a whole lot (rhyming was unintentional) to make entire meals.

If you are new to instant pot cooking, you NEED this book! All these recipes are delicious!! I have tried many of these recipes and they are very easy and simple and tasty!! This book will make you realize how easy instant pot cooking is. You will be amazed by the variety of recipes in this amazing book! It will take you years to get through this book! This is a marvelous product of Emma Katie, I highly recommend this book! You will love it!

I think that author Emma Katie's recipe books are very well done. I've purchased a ton of them and she is my go-to author for each type of specialty cooking. This one was no different. These instant pot recipes are varied and have detailed instructions, making them easy to make for even a novice cook. So far, we've made the Chestnut Soup and Salmon Stew. We have a long list of recipes to make over the coming months.

I checked first to be sure I could make bread and yogurt and was told "no problem". Bought it. Tried it. Finally asked again directly from Instant Pot and was told it really didn't do very well with bread and did some yogurts and some rice. Since I already had a good pressure cooker I do think I would get a refund if I could.

I didn't realize the benefits of using Instant pot, but exactly this book helps to answer this question! I really like paleo diet because of naturalness and this book is amazing guide into this world.

I've just purchased an Instant Pot cooker, and this cookbook has provided me with SOOO many good ideas on how to best use my new appliance.
