Drug Delivery: Fundamentals And Applications, Second Edition

Synopsis

This book provides a comprehensive introduction to advanced drug delivery and targeting, covering their principles, current applications, and potential future developments. This edition has been updated to reflect significant trends and cutting-edge advances that have occurred since the first edition was published. All the original chapters have been retained, but the material therein has been updated. Eight new chapters have been added that deal with entirely new technologies and approaches.

Book Information

Paperback: 632 pages

Publisher: CRC Press; 2 edition (September 3, 2016)

Language: English

ISBN-10: 1482217716

ISBN-13: 978-1482217711

Product Dimensions: 1.2 x 7.2 x 10 inches

Shipping Weight: 3 pounds (View shipping rates and policies)

Customer Reviews

Anya M. Hillery earned her BSc (Pharmacy) from Trinity College Dublin, Ireland, in 1990 and her PhD in pharmaceuticals at the School of Pharmacy, Brunswick Square, University College London, UK. She continued her post-doctoral studies at the Square, then in 1995 took up a lectureship position in Pharmaceutical Sciences at the Department of Pharmacy, University of Brighton, UK. This was followed by a move in 1999 to Saint Louis University - Madrid Campus, Spain, where she currently lectures in the division of Health Sciences. She has previously served as Director of the Department of Science & Engineering, and Vice Dean, of SLU-Madrid. Kinam Park earned his PhD in pharmaceuticals from the University of Wisconsin in 1983. After postdoctoral training in the Department of Chemical Engineering at the same university, he joined the faculty of the College of Pharmacy, Purdue University, in 1986 and was promoted to full Professor of Pharmaceuticals in 1994. Since 1998, he has held a joint appointment in the Department of Biomedical Engineering and

became Showalter Distinguished Professor of Biomedical Engineering in 2006. His research focuses on oral delivery, drug-device combination products, and microparticle delivery systems. He is the founder of Akina, Inc., specializing in polymers for drug delivery. He is currently the editor-in-chief of the Journal of Controlled Release.
