Mark Salisbury is a contributing writer for *Premiere* magazine. He edited the book *Burton on Burton* (Faber & Faber) and is the author of *Behind the Mask: The Secrets of Hollywood's Monster Makers*, among other books.

There are two books on the making of the film. This is one (160 pages) and the other is 'Inside the Magic: The Making of *Fantastic Beasts and Where to Find Them*' (144 pages). Both books talk about the making of the film so I don't know why it's necessary to put out two books other than to

confuse the fans. I recommend getting *The Case of Beasts* instead because it's the better book. This is a hardcover book that comes with a magnetic latch which is quite cool as it's made to look like Newt's case. Focus of this book are on the characters and location. It talks in detail about the actors, the story characters and the locations. It answers a lot of whys and hows. You can read about why the actors are casted, the peculiar of the characters, how they recreated the 1920s New Yorks, how the sets were designed, the props that were used, the research that went into making the film. There are lots of behind-the-scenes photos, film stills, designs and pictures of the props. This book is presented like a scrapbook. There are also items pasted onto the pages, such as Henry Shaw's campaign brochure, Porpentina Goldstein's identification card issued by Macusa, two maps one of which was shown pinned to a board in the film, large wanted posters for Newt and Porpentina, and an application form for wand permit. There's so much to explore in this book. I'm pretty sure it will delight all fans of the film. (See more pictures of the book on my blog. Just visit my profile for the link.)

I am absolutely in love! Living in the US this is about as close as I can get to seeing all of the magical items at the House of MinaLima. I adore all of the pull outs and it really brings the movie and the magic into your home. The whole book is just art in itself. I didn't even know about it and saw it on the MinaLima instagram and knew I had to have it. It's perfect for any Harry Potter fan. My brain is on overload flipping through the pages. **ALSO: I LEGITIMATELY NEED TO KNOW IF I CAN SUBMIT THIS APPLICATION FOR WAND PERMIT!!!** Please? Ha ha. Love the book and the movies and it's amazing to have a piece of the magic at home.

I haven't actually watched the movie yet but when I noticed that this book was designed by MinaLima, this was an instant buy for me. I was certainly not disappointed. I loved the work they did in the Harry Potter films and this is not an exception. I love the posters, the inserts and everything about it!

I bought this as a Christmas present for my roommate and is taking every ounce of my self restraint not to keep it for myself. I looked through the book briefly and it is the coolest book! The handouts are the best part, especially the Wanted posters. Overall the greatest gift I could get her and I'm hoping she is as excited as I am or I will take it back for myself

Yes yes yes!!!! Also do not forget to buy the Harry Potter film wizardry as well, it has loads of pull

outs too! When I met D. Rad in person, he signed his "Undesirable No. 1" poster by Minalima. :)

Easily the best of the three companion books Harper Collins published. The amount of insight and detail in the behind the scenes looks at different aspects were incredible. This one, unlike the other, really focused on the production aspects - what each department did and why and how. Plus the graphic art and prop facsimiles and recreations were rad.

I have a similar book for the HP movies and I absolutely love it so I knew this would be just as amazing. Full of fun facts and little graphic design props for you to remove and decorate with if you want! I know I hung up Newt's wanted poster! I guess this book came out before the movie because I noticed some differences. Ex: scenes and characters described that must have been cut from the final movie, but that didn't really bother me. They'll probably be on the DVD!

Yes this is a very well done book. My only complaint is that there truly only one page or less for each beast. I think that one of the most exciting parts of the movie were the Fantastic Beasts and my son will be disappointed that there are not more pictures of all the beasts.
