France, Belgium, And The Netherlands Classic [Laminated] (National Geographic Reference Map)

Synopsis

National Geographic's Classic style political map of France, Belgium, and The Netherlands features clearly defined international boundaries, thousands of place names, waterbodies, airports, major highways and roads, national parks, and much more. Also shown are the region's updated infrastructures, including major oil fields and pipelines; high-speed passenger railway lines; canals; and ferry routes. The tasteful color palette, shaded relief, and bathymetric data make this map as attractive as it is functional. Luxembourg and portions of the United Kingdom, Germany, Switzerland, Spain, and Italy are shown as well. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:1,955,000 Sheet Size = 23.5" x 30.25"

Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

Great map of France. It has many of the smaller cities and towns on it that we visited last year.

Perfectly detailed!

If you like this style of map , then this is a particularly fine example of the cartographers art. Not only is it well framed giving an excellent placement of France within its geographical context; the bordering countries are equally well detailed. Some maps whether by geographical providence or poor scaling are awash in ocean bleu. Here, not only do you get the countries in the title but also Wales Luxembourg, Andora, nearly all of England, and Switzerland, as well as a fine introduction to Spain, Italy and Germany. Magnifique!!

It was difficult for me to find a map that wasn't too detailed or too uninformative. This was perfect for class and for using at a culture fair at our senior center. We pinned it to the wall behind our display. Worked great.

The map itself is what I expected and would recommend it. I'm giving three stars becausealthough it came in a tube, the map was not in very good shape before it was put into the tube. I kept it anyway as it was needed immediately and I didn't have time for an exchange.

It suits the purpose but is not easy to read. Helpful for planning but you really need additional maps for serious trip planning other than tours.

really great, very detailed, I am using it for a family tree. Not all the tiny towns are there but pretty much every place that can hold a letter has a name!

I also bought the Germany Classic poster and I really love these. Very detailed and clear and look great on my wall. Will continue to buy these as I visit the countries.
