# The Psychic Gambling Supersystem

## Synopsis

If you think luck is random, THINK AGAIN! Human beings possess a subtle energy field that envelops the physical body. When activated, it is capable of manufacturing luck and producing remarkably accurate powers of intuition and foresight. Beneath the deceptive fabric of everyday reality, energy fields continually wage wars to determine who "gets lucky." Those that possess naturally gifted energy fields (such as world class poker players Phil Ivey and Daniel Negreanu) cannot be defeated with skill alone. So the question becomes, "How can YOU develop and use this psychic energy?" THE PSYCHIC GAMBLING SUPERSYSTEM provides the answers. Author Sunil Padiyar offers an engaging study of both the scientific and spiritual aspects of luck, intuition and foresight, all while taking the reader on a riveting journey from the modern theories of Quantum Physics ("God does not play dice!" said Albert Einstein, only to realize later that he was wrong) to the metaphysical theories in the ancient scriptures of the Hindu Upanishads (written as far back as in the first millennium BC). The author recounts authentic stories to describe his own mystic beginnings in a strange and remarkable land, and reveals the intriguing experiences that led to his personal discovery of the principles on which the book is based. He then presents his three-part Supersystem, designed not only to allow you to win more often in games of chance, but to improve your psychic abilities in all aspects of life. Each component of the Supersystem is explained with step-by-step instructions, illustrations, and examples. The final four chapters of the book focus on practical application, and give you the specific techniques you need to harness your psychic powers for winning at poker, blackjack, slots, craps, keno, lottery, horse racing, and other games of chance.

## Customer Reviews

I have read and tried a lot of manifesting systems. It's like my hobby. Anyway I recently utilized halfheartedly this method of chanting at the slots and a Huna method on a trip to a local casino. I won my first big win 1300. Then just the other day I choose to read up more thoroughly on the methods of energizing your chakras, combining that with the silent chakra chanting at the slots. I kept winning little jackpots. After giving 700 back to the casino, I went home with 3700. No fooling. I hope the author writes another book with more methods. I recommend it.

Heart warming book, starting with his early life adventures in India. It will take some persistence to fully apply it.

I find that following the prescribed process for activating the Supersystem is tedious and difficult to do. Trying to follow the timing for breathing and silently chanting the mantras is annoying and interferes with my focus on what is taking place at the poker table.

Help you to change your belief mentality and teach how to use the energy from your chakras to increase your energy and reach your goals.

I didn't know anything about gambling before I bought this book. So after reading it, I went to Las Vegas and won Fifty Six Thousand dollars.

Not a practical book for me. It's too complicated to do these exercises, but that doesn't mean the book wouldn't work. I guess it would work for people who are really into this type of gambling. It's just not for me.

Great book

fresh, interesting and original perspective- worth the time to read it whether you are a gambler or not  
( I am not)
