Essentials Of Geology (13th Edition)

Synopsis

For introductory physical geology courses. Using dynamic media to bring geology to life. From the renowned Lutgens/Tarbuck/Tasa team, the 13th Edition of Essentials of Geology continues to elevate the text's readability, illustrations, and focus on basic principles. This revision incorporates a structured learning path and reliable, consistent framework for mastering the chapter concepts. With a fully integrated mobile media program that includes new Mobile Field Trip and Project Condor quadcopter videos as well as new animations and videos, this edition provides a unique, interactive, and engaging learning experience for readers. Also available with Mastering Geology Mastering Geology is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Interactive, self-paced tutorials provide individualized coaching to help students stay on track. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts. Note: You are purchasing a standalone product; Mastering Geology does not come packaged with this content. Students, if interested in purchasing this title with Mastering Geology, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and Mastering Geology, search for: 0134663772 / 9780134663777 Essentials of Geology Plus Mastering Geology with eText -- Access Card Package Package consists of: 0134446623 / 9780134446622 Essentials of Geology 0134609042 / 9780134609041 Mastering Geology with Pearson eText -- Standalone Access Card -- for Essentials of Geology

Book Information

Hardcover: 608 pages

Publisher: Pearson; 13 edition (January 14, 2017)

Language: English

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #11,217 in Books (See Top 100 in Books) #20 in Books > Science & Math > Earth Sciences > Geology #46 in Books > Textbooks > Science & Mathematics > Earth

Customer Reviews

Fred Lutgens and Ed Tarbuck have been good friends and colleagues since 1970. Between them, they have more than 57 years of experience teaching geology to undergraduates, and both have been recognized with awards as excellent and inspiring professors. They share a special interest in introducing geology to beginning students and a belief in the value of field experiences for students of all levels. Lutgens and Tarbuck published their first college text, *Earth Science*, in 1976. That book, winner of the McGuffey Award from the Text and Academic Authors Association, is now going into its 15th edition. In 1983, as the 1st edition of *Earth* was being prepared, gifted geology illustrator Dennis Tasa joined the author team. Since then the three have collaborated on more than twenty projects. Not only do Tarbuck, Lutgens, and Tasa work well together creatively; they also enjoy spending time in the Sangre de Cristo Mountains near Tasa's New Mexico studio. Tarbuck enjoys downhill skiing in Colorado, fly fishing near his childhood home in Northern Minnesota, and spending time in the Cascades. Lutgens is an avid runner, and when he can make the time, truly enjoys hiking the canyons of the Colorado Plateau. Although Lutgens and Tarbuck think alike on many issues, they don't agree on everything. Lutgens is devoted to jazz and classical music, whereas Tarbuck prefers pop artists or a good country station.

Quick shipping and just as advertised
