Customer Reviews

I have used this many times when I am in Myrtle Beach. Has been Accurate however due to the smaller size you need to flip from page to page to follow route to your destination. Small size is nice for storage in the car and to work with however for plotting a route it takes abit longer. I would still recommend it as it's accurate and has good detail.

Instead of providing a nice map of the whole area, they gave page after page of small areas with

font so tiny it was unreadable. Just to find my way from the airport to my hotel I had to enlarge many small areas and tape them together. Once I got to Myrtle Beach various booklets provided readable maps of the entire area. I do not recommend this product.
