In Our Backyard: Human Trafficking In America And What We Can Do To Stop It

Synopsis

Modern slavery is happening all around you...and you can be part of the solution. Human trafficking is not just something that happens in other countries. Nor is it something that just happens to "other people", such as runaways or the disenfranchised. Even kids in your own neighborhood can fall victim. But they don't have to. Through true stories and expertise from her many years of boots-on-the-ground experience, anti-trafficking expert Nita Belles teaches you everything you need to know about human trafficking in the United States - helping you identify risk factors, take practical steps to keep your loved ones and neighbors safe from predators, and recognize trafficking around you so that you can help fight it.

Customer Reviews

This book provides a good overview of human trafficking in the United States and is readable for the average person. Each chapter covers a specific form of trafficking through life story and then gives further explanation of the issues of trafficking ending with questions relevant to the information covered in the chapter. The book is clear, concise and easily read. We are using this book specifically for a church book read as an additional way to inform members of our parish about the issues of human trafficking in conjunction with an education program in our community and in partnership with 2 local HT organizations. Some books we considered were too disturbing for a large book read. The sad part of this effort is the more we educate and discuss in our parish, the more people are coming forward with personal experience and exposure to Human Trafficking in our suburban backyard. The only reason I rated this book a 4 rather than 5 is the questions at the

end of each chapter are more like test questions with factual answers that can be found by reading the text as opposed to discussion questions that might get at the moral and responsive aspect of this horrific fact of our culture.

Heartbreaking, but something we ALL need to read. We need to grow our awareness of these issues, and spread the word.

Nita Belle has written an educational and informative book about the Human Trafficking issue that is occurring under our noses--"in our backyard". Her passion for those who have been enslaved by people who worship money and will go to any lengths to obtain it is obvious. When you see her in action, she is fearless in her need to offer help to those caught in this trap. I count myself lucky to have her as a friend and to be able to learn and share information in her company. Thank you Nita!!

Very informative.

Thanks for writing this book!! What an eye-opener!! For too long now, I always thought and wanted to believe that this kind of thing would not happen in our neighborhoods and boy am I wrong. A must read to help you understand what to look for and always to speak to those you love and know about it.

Great information about human trafficking here in the U.S. Shocking and sad, with advice on what can be done. Definitely worth the read. We all need to be aware of the horrors so human trafficking can be stopped!

This is a must read for everyone, especially parents. It was thought-provoking, inspiring, as well as educational. We cannot afford to look the other way and pretend this isn't happening in our own communities. Lives are at stake.

This book makes it clear that human trafficking is not just a problem overseas or only in our big cities but is pervasive throughout America. If you want to be better informed about trafficking, this is a good book to read.
