I purchased a few of these to give as gifts on the strength of the reviews that gushed over how

lovely it is. It is a beautiful book. The pages are in the style of goal-planning sheets, although the questions posed on each one varies and allows the person to contemplate each goal in different ways. It is a great gift for those who like to do a lot of journaling and planning. Those who have a more right-brained style could simply take the format on each page as a launching pad for daydreaming, doodling over, and pasting photos over the pages in a more free-form style. It has lovely photos, inspirational quotes, and personal stories that make it a very nice gift and a wonderful keepsake, no matter the approach taken.

Love my purchase! This book is so unique and special. I hunted the web for hours looking for the perfect book to give my travel-loving buddy a perfect 30th bday present - she loved it! With unique quotes, ideas, and places for you to keep pictures of completed bucket list items, this is a perfect book for an adventurous person!

Love his book and I like how for each entry, there are different questions to document your experiences while fulfilling your bucket list
