Customer Reviews

This book actually told me information that I needed to know such as how to build a passive income and the obstacles that would get in my way when trying to build this passive income. I gained some ideas and will want to try one of it. This book includes 4 business models of passive income: 1. ONLINE PUBLISHING 2. DROPSHIPPING 3. FBA - Selling Physical Products 4. MERCH

In today's world, mindsets have changed from working a 9 to 5 desk job to a more flexible form of income. Passivity and having multiple forms of income are essential in living a life of financial freedom. The author does a great job at illustrating different passive income ideas and how you can execute them successfully. If you are looking to make passive income and potentially quit your day job, give this a shot.

I started reading up on passive income streams by chance from browsing the internet, and it really got me excited about the possibilities. However, although the internet had some great info, it was all over the place and I felt like I was finding a needle in a haystack. So I decided to get a book on it to make it easier to understand. This book was at a great price and I really liked how it was structured. It was like having a mentor in a book where a lot of my questions were answered, and I appreciated that it took you through only a few forms of passive income so it's not overwhelming.

I needed a book to find out on how to create audio books and make a passive income out of it. I was not disappointed; seriously, this book has great resources for many business models, and it shows step by step instruction on how to achieve specific goals. Great F & Q section too.

This book was a very good overview of passive income. Inside of this book I have found tons of amazing information and helpful instructions. This book taught me about some practical method for creating an automated system in order to earn passive income via online. It explains the difference between passive and active income, active being income you actually have to work for. One thing

that surprised me was this book saying that most people would not feel fulfilled having only passive income because then you aren't keeping busy. So much worth recommending!

Passive income really is a dream of mine since I usually work month to month. This edition of the book *Passive Income* makes my lingering ideas a possibility when I discover there are ways to do it online. Lots of good websites and resources for information and available in this book, and not everybody has to do the same thing to attain passive income. Over all this book is useful to me because it has new information, so I have some new ideas about what direction I want to take my ideas. Good job.

Everyone wants to make money online, but there are so many options that most people just end up confused. "Passive Income" cuts through all of the fluff and outlines four of the best models for starting an online business, presenting the material in a straightforward manner that helps you choose the right direction for you. This is not a big book, but it does a great job of covering the basic information you need to pick your model and start moving forward.

I have always been a seeker of different ways to receive income passively. I think that this is the best way to work and get money because it can turn into something that you quickly don't have to work for and receive every year. This easy to read guide was very informative and allowed me to understand in a better sense, what it means to get passive income. As well as opened me up to new opportunities that I'm ready to embark upon and try out!
