I can only say from my children view these books rock! your kids love Minecraft and you want to get some reading in too get them these books.

My son loves this series. It really motivates him to want to read. He now randomly talks about Agramon. The story is a continuation of Flash and Bones, and a friend they met along the way. It is a good story. The comic does have some grammar and spelling issues. It could still use some additional "polish" but it does keep the little one entertained. We now have almost all the Flash and Bones comics and the boy has almost every comic memorized. I would highly recommend this to any fan of Minecraft, and have. I do wish it was a little more polished, especially for the price they are asking. The easier to read update is nice. We have been reading the previous comics on my 10.5 inch tablet because it is so difficult to read on the kindle, especially for our older

eyes. Additionally, it is nice that they have reading comprehension questions throughout the comic that allow kids to earn a free book by the author. It's a nice bonus. Using slow shipping credits is an excellent way to purchase these comics, as I did.
