Assisted Living Administration: The Knowledge Base, Second Edition

Synopsis

Assisted living, the fastest growing residential option, burst upon the American landscape in the late 1980's. These facilities serve persons who no longer are able to live independently and need help with the activities of daily living, but do not need 24-hour nursing care. James Allen has updated and refined this second edition of *Assisted Living Administration* to include new information on the Senate Aging Taskforce report of 2003, and the financial shape of the industry. The volume also covers resident care issues, aging theories, as well as new industry data. This volume is intended as a text for professionals-in-training for certification, in addition to being a resource for the seasoned administrator.

Additional resources from Springer Publishing Company are available to persons preparing to become long-term care administrators : Nursing Home Federal Requirements and Guidelines to Surveyors , Eighth Edition: A user-friendly rendering of the Centers for Medicare and Medicaid Services nursing home inspection requirements. Nursing Home Administration , Seventh Edition: The definitive textbook of essential knowledge for obtaining licensure and employment as a nursing home administrator. Visit www.springerpub.com for more information

This was a great learning manual for administrators in training. Easy to understand and highly informative for the new administrator just entering the field.

Covers what you need to know about assisted living administration on a general level. would I recommend it? Sure will

Compared to his utterly dreadful "Nursing Home Administration" textbook, this book is like a fun summer vacation. Good information for aspiring A.L. Directors.
