Carl E. Morton is a college graduate, who although years removed still muses over the experience that is college. A product of Tufts University and Boston Latin High School, Carl acknowledges these institutions as major sources of inspiration while writing this book.

Purchased this book for a friend in university. They enjoyed it and it was in excellent condition. It is humorous, but more of a chuckling quietly to yourself rather than laughing out loud read.

If you are looking to re-live your positive, negative, memorable, and exciting college experiences, this book is for you. It defines grades, dorm life, teachers, wine and cheese parties, all with tongue firmly in cheek. I bought one for my niece, to help guide her through study halls, late night cramming for exams, and general phrases and definitions we all used when we were in college, regardless of the year we graduated. Some school experiences are universal, and this book covers them all. It's a good and fast read.

I have many years behind me since being in college, but this book brought me right back. I read it while on the train home from work and had people looking at me sideways because I was laughing out loud at the words chosen, their definitions, and the memories conjured up. You don't need to be a college grad or current student to enjoy this "student dictionary" though. My 16-year old college-bound younger sister also found this an entertaining read. Tops on my list of gifts for students of all ages!

...the ultimate graduation gift for your high school senior, or stocking stuffer for your college student...or for that matter, anyone that has attended college in the last 20 years. I laughed, I cried, I started having fond memories of people I'd known in college. I hope there is a sequel.JJ
