"I absolutely adored this book. I actually learned about animals and musical instruments that I had never heard of, so it will definitely teach both children and their parents something they didn't know. I thought this was such a cute and clever way to incorporate the concepts of the alphabet, animals, and music in an engaging way that children will enjoy. This book would be such a wonderful tool for educating children both in and outside of school. It is a must-read!" ~

Even I learnt a few new things, can't wait to get hold of a YUNLUO now!" ~ Tony Moore, Media Mogul/Producer, Musician (Iron Maiden, Cutting Crew) "Fifo Musical Animals ABC is a top notch choice in literature for the young child, and author Hayley Rose and illustrator Mark Sean Wilson should absolutely pair up again to work on another one of these gems! I, for one, would be in line to get it as soon as it was available!" ~

A beautiful and memorable book, both for children learning their ABC's and the parents who read to them! Not the usual instruments or the usual 10 animals we hear about, but a wide variety that makes you smile. The illustrations are done with a warmth and humor that make you want to just keep pouring over the pages. A rich invitation to parents/grandparents to cuddle with their young child and go over the pages of animals and instruments. I bought print copies from the author as well, for our youngest ones and those who read to them. You could never get bored of this amazing book.

I am positively in love with this book. The creativity of matching the instruments and animals is the best ever!! Once again Haley and Mark have knocked it out of the park. I was going to give the book to my two year old great niece for the holidays, only she found it on my desk when visiting. I'm glad she did because we had so much fun reading and laughing together. I also learned a few new instruments and animals in the process. I'm stocking up on this one for gifts all year long.

Once again Hayley Rose has taken us on a fun and educational journey with *Fifo!* Combining

incredible illustrations with her knack for word juxtaposition, any child can learn about varying and different instruments, animals and the great fun of doing things together. A beautiful book, the perfect present for any child in your life, certainly in mine! Thank you to Hayley for creating a wonderful read!

Hayley Rose has done it again!! Teaching with FUN!! It's all there on the pages, with colorful imaginative drawings that my kiddos love to look at, and fun with words, while learning to read, with the clever ABC's of animals and music ~ her books are so much FUN, my grandson hardly notices that he is learning and practicing his reading at the same time. What a great way to educate! Love it ~ And I love sharing your books, and my time with my grandkids! Thanks again Hayley for your creativity on this one!

I have all of Hayley Rose's book, now. They are each wonderful reading. Fifo's Musical Animals is a whimsical, lovely adventure for both the reader and the listener. The choice of animals and instruments is so clever, humorous and stimulating to adults and children. Well done. Please write more books. My nephew loves them.

This is great book. I am part of a reading program that helps children learn to read, this book has great illustrations to keep the children interested and provides a tremendous variety of words to help the children learn both simple and complex words.

Great book! The author found an easy and interesting way to teach kids not only the alphabet, but some fairly unique instruments as well. A must for young kids. Excellent illustrations, too.

"Fifo Musical Animals ABC" is a fun and educational book that helps kids learn their alphabet, animals, and instruments all in one colorful package. My favorite is the Moose playing the mandolin. It was great to discover some more exotic instruments from around the world as well. Kids will love it!
