California Drivers Test Made Easy: By A Former Driver Examiner

Synopsis

CALIFORNIA DRIVERS TEST MADE EASY has been in publication 32 years. The 2013 edition has several new laws you may not be familiar with. With a quick read of DMV's California Driver Handbook it will be current for several years. It has helped thousands make 100% on their California Class C, Original and Renewal license, and on their Minor's Permit test. Drivers applying for any type California driver license will find it helpful. Many called in by DMV's Safety Unit for reexamination have retained their license, or had it returned to them, after a careful study of this book. It will fully prepare you for Test Day at DMV: tell you what to bring, what to do and what NOT to do: what to say, and what Not to say in order to get along with the examiner. Its seven practice tests will help you learn the answers to any of DMV's several different tests. Its driving tips will help you drive like a pro on your behind-the-wheel test. You'll learn how to safely make right and left turns, back up straight, parallel park, do a 3-point turn, park on hills and make safe, legal stops. It will teach you everything you need to know to pass your test with a high score, and with a minimum of discomfort. It's all here for you. The secrets to staying in the driver's seat for many years are shared with you by a former driver examiner, professional driving instructor and National Safety Council Defensive Driving Course Instructor. One reader wrote: "My wife and I are convinced this is the best book ever written about driving." Another wrote, "I bought it to help my teen-age son pass his test. I have been driving for many years but it taught me a lot about driving that I did not know." The author and publisher are pleased to note that year after year the book is consistently rated as the number one bestseller of drivers test study guides in the U.S.

"Syman has revised her book to make sure it accurately quotes California law." -- North County Times, Escondido, CA January 4, 2002

Don't discard this book after you pass your test. It will be current for several years. It may even be current when you take your next test. DMV laws don't change very often and good driving rules never change. Rock Kimball's DVD, "Road Test Tips" is an excellent supplement for this book. It is also available from [.com](#).

My wife and I, at age 75, both passed the exam today with flying colors! Be advised much of the actual test 'question wording' may be different than in the book, but the answers all matched those on my test. My biggest praise is toward the California DMV office in Hemet. It was our first visit to a CA DMV in about 15 years, and I would have rather gone to the dentist before! The new system was streamlined, and the office was very clean and organized, with friendly workers. We were in and out in 30 minutes! We filled out our apps. ahead of the appointment day. Our reason for the test is that we moved to Oklahoma for several years, and just moved back. NOTE: Hemet uses large, easy to use touch-screens for the test, so it's not easy to go back for unanswered questions. If you use an iPad or any touch screen computer you'll have no problem.

DAUGHTER READ, DAUGHTER GOT HER PERMIT, EXCELLENT SOURCE OF INFO.

Good reading and makes it easy to pass the written test

So much easier to follow than the droll of the DMV driver handbook.

This product came fast and it wasn't damaged our anything I love the book

I have been a fan of Alice Syman's books for probably 20years now. I even believe in them so much that I give them out as gifts. Why? Everyone has a fear alone of just going to the DMV. We also know that they so like to trick us with the wording of many of the questions. So the answers are right

here in this latest edition. It is like a friendly cheat sheet. But also while you study from this book you see how important it is to truly know the latest changes to the driving codes and more. So for less than 20.00 you will become fearless and know that when you are in that line....you are the one with the advantage. Buy it today!

The author must be smiling every time a royalty check comes through the door. I could produce this myself in a day if I had a copy of the CA DMV handbook (available free online and at the DMV by the way). The test questions are worded so poorly they are either laughable, grammatically absurd or logically flawed. Many of the multiple choice questions have numerous correct answers. Absolutely full of mistakes. The practical advice is basic - take a deep breath and don't make too much conversation with the examiner. Thanks - amazing insights there... Reading the actual handbook (did I mention that's free) was infinity more valuable than reading this junk. There are also practice tests available free online, which read like they were written by adults and aren't logically flawed. This book is not even worth \$1. Sorry for the rant, but this is blatantly just a cynical attempt to make money from a free handbook and steady supply of anxious learner drivers. Peace.
